## Professional Experience

Manager / IT Administrator—Signature Studio — 2011-Present

- Created company website making it easier for customers to navigate company products.
- Maintain network and system infrastructure.
- Manage data for over 8,000 K-12 students.
- Helped design yearbooks

SSCIA Team Leader — Geek Squad City — 2010-2011

- Led a team of repair agents to meet weekly repair quotas and maintain low return rates.
- Trained over 15 new hires to troubleshoot and repair laptop hardware.
- Consistently exceeded company weekly repair quotas and was regularly one of the top 5 repair agents out of 300+ others.

Easy Tech Expert — Staples — 2007-2011

- Led team of Easy Tech Associates to meet goals and properly troubleshoot and repair computers to ensure customer satisfaction.
- Created a new system to perform PC “Tune-Up’s” so they could be completed in half the time.

## Projects

Personal Contact Website ([www.alexclark.org](http://www.alexclark.org))

I created a personal website using HTML, CSS, Javascript and jQuery.  
Users can view my various ways to contact me and view my projects and portfolio.

Div Maker (<https://www.github.com/alexclark4121/divmaker>)

A small javascript project that creates divs when you click a button.

Yearbook Selection App (<https://github.com/alexclark4121/YearbookImageSelectionForm>)

A form used to keep track of high school seniors image choice for their yearbook image. Made in Winforms.
